Modern and Classic Zinc handles and knobs

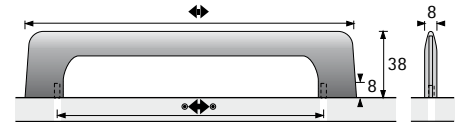

The combination of metal handles and knobs with high quality furniture never goes out of fashion. Depending on the overall style, the effect can be traditional or strikingly modern. Outstanding design and a large number of variants make metal handles and knobs real eyecatchers.

Timeless elegance Stainless steel handles

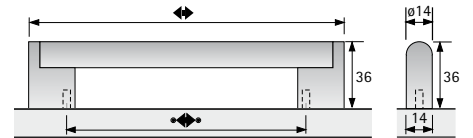

Stainless steel is an outstanding material – it always looks good. Handles made of stainless steel are impervious to corrosive substances. This is the material of choice for hard use and extreme conditions.

Eye-catching and contemporary Aluminium handles

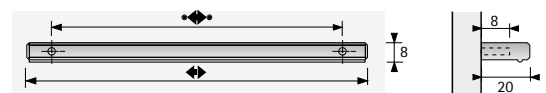

Aluminium is a modern material with a low specific weight and high dimensional stability. Its silky metallic appearance gives furniture a strikingly contemporary look. With all the advantages of metal, aluminium never looks or feels cold. On the contrary, warmth immediately passes from your hand to the handle, making it a pleasure to hold.
